المقدمة
INTRODUCTION

لماذا هذا الكتاب ؟

لأن هذا الجيل هو جيل المعلوماتية التطبيقية وليس عصر المعلومات النظرية ، وهو عصر استخدام الإنترنت وليس تعليم الإنترنت ، من هذا المنطلق تطرقنا في هذا الكتاب تقديم واحد من أهم الأساليب التي يستخدمها مستخدمي شبكة الإنترنت في كيفية استخدام هذه الشبكة العملاقة استخداماً جيدا وبناءً . .

لقد أجمع العالم الغربي على أن لا يترك هذه الشبكة يوما واحدا بدون أن يكسب منها العلم أو يكسب منها المال . . ونحن نجد كثيرا من مستخدمي الإنترنت يبحثون فقط عن برامج اللعب والمحاكاة ، يبحثون فقط عن كسر حاجز العلم وإضاعة المال الوفير الذي تختزنه شبكة الإنترنت بداخلها . .

ذهبت إلى الصين وهونج كونج لحضور إحدى المعارض الدولية فوجدت عقولاً تُستغل لجمع أطنان الأموال فسألت عن السبب فقالوا عرفوا الطريق فمهدوه . .

وذهبت إلى أوروبا وبالأخص ألمانيا وإيطاليا وفرنسا لحضور إحدى المعارض الدولية أيضا فوجدت أن تلك العقول المستغلة ما هي إلا آلات ذكيه تحركها عقول قوية من خلال برامج تكنولوجية على رأسهم شبكة الإنترنت . .

هذه هي شبكة الإنترنت التي يستغلها دول الغرب لنشر منتجات الدول الآسيوية وبيعها عن طريق مواقعهم بالإنترنت في أوروبا . . وسردنا في هذا الكتاب بعض أهم هذه المواقع . . ولأن شبكة الإنترنت أصبحت الآن الوسيلة الوحيدة السهلة والسريعة والأرخص ثمناً في عمليات التبادل التجاري ، سارعت دول آسيا بعمل أقوى المواقع التجارية التي تخاطب كل دول العالم ونجحت نجاحا باهرا لدرجة أن أسواق العالم أجمع مليئة بمنتجات دول شرق آسيا ... من فعل هذا ؟ أعتقد أننا جميعا عرفنا الإجابة ...

حتى حينما ذهبت إلى الولايات المتحدة الأمريكية لدراسة دبلومة متخصصة في الإنترنت وجدت شعوبا لا تنام وجدتهم يستغلون الإنترنت أحدث وأعظم استغلال على وجه الأرض ، حقا انهم وبغض النظر عن

النواحي السياسية هم أعظم ولايات قاموا بتطبيق نظريات العلم الحديث في أقصر وقت ممكن وكانت النتيجة أنهم أصبحوا كما نرى الآن !! .. وجدت طلاب المدارس والجامعات يكسبون أسبوعيا 1000 دولار على الأقل من خلال البيع على شبكة الإنترنت وذلك عن طريق بعض المواقع التي تقدم هذه الخدمة وقد قمت بسرد أهم هذه المواقع .

أما حان الوقت أن نبيع ونشتري من خلال شبكة الإنترنت؛ أن نستورد ونصدر منتجاتنا العربية من وإلى أنحاء العالم؛ أما حان الوقت أن نعمل جاهدين على تطبيق التجارة الإلكترونية الهادفة في بلادنا العربية...

شبكة الإنترنت تنادي كل من لديه قليل من الخبرة للعمل على جهاز كمبيوتر وله قدره بسيطة للتعامل مع الإنترنت بقليل من اللغة الإنجليزية. .

لا تضيع الوقت ولا تتواكل على حكومتك لكي تجد لك وظيفة بمرتب قد يقتل الطموح بداخلك . . الطموح الذي يعتمد على تنمية القدرات أو العمل الحر . .

وكتاب دليل المواقع التجارية يقدم أهم وأعظم المواقع التجارية في جميع النواحي التجارية سواء مواقع البيع والشراء ، مواقع الاستيراد والتصدير، مواقع الاستوكات ومواقع المزادات العالمية ومواقع الشحن والدفع الإليكتروني وتجد أهم مواقع الدلائل وقواعد البيانات التجارية وأيضا أعظم آلات البحث التجارية التي تجعلك تخوض و تجلب أي معلومة مهما كانت في مجالات البحث التجاري ...

هذا الكتاب أيضا مزود بمواقع تفيد المستثمرين وأساليب التمويل وأيضا مواقع البنوك وسوق المال في جميع دول العالم .. وفي هذا الكتاب جزء كبير خاص بالوطن العربي والشرق الأوسط يجمع أهم مواقع دلائل وآلات البحث التجارية والتسويقية في شتى المجالات والمنتجات . .

وحتى يطمئن الباحث أو الدارسين على الأخذ بهذه المواقع، له الحق أن يعرف أن مقدم هذا الدليل حاصل على بكالوريوس العلوم جامعة الإسكندرية ، وله باع طويل في مجال الاستيراد والتصدير والبيع الناجح عبر شبكة

الإنترنت بمصر وأمريكا ، ثم حصل أخيراً على دبلومة متخصصة في الإنترنت من الولايات المتحدة الأمريكية . .

كيف تبحث في هذا الكتاب:

لقد قمت بسرد قائمة المحتويات contents حسب رقم الموقع وليس رقم الصفحة ليسهل على الباحث الوصول إلى عنوان رئيسي أكثر دقة وتحديداً للمعلومة أو الكلمة التي يريدها الباحث . .

وقد تم سرد جميع المواقع وشرحها باللغة الإنجليزية لأن البحث داخل شبكة الإنترنت يعتمد على هذه اللغة . . فالأفضل أن تتعلم وتبحث بهذه المفردات .

أسأل الله العلي العظيم أن يكون هذا العمل مفيداً ونافعاً وبناءاً لكل الباحثين العرب ، وأن يجعله الله سبحانه وتعالى في ميزان حسنات والدي رحمه الله ، وبهذا العمل أدعو الله أن يغفر ذنوبنا ويسدد ديوننا ويشفي مرضانا ويرحم أمواتنا ويهلك أعدائنا وينصرنا على القوم الظالمين . .

وآخر دعوانا أن الحمد لله رب العالمين

471. Agri-Business Assistant

http://www.trace-sc.com/agri/menu.htm

If you've got a craving for a 20 foot container of Florida grapefruit, go here. You choose a crop or product such as bananas, citrus or tobacco for example.

472. Global 500

http://pathfinder.com/fortune/1996/specials/g500/intro.html

Fortune 's listing of the world's largest companies by revenue was topped by Mitsubishi in 1996.

473. Green Pages

http://eco-web.com/

Published by Swiss consulting firm ECO Services International, this directory of global environmental technology lists 3,000 manufacturers, engineering consultants and information services from 44 countries.

474. **Industry Link**

http://www.industrylink.com/

This is a heavy duty site with long lists and brief descriptions of corporate web sites organized into almost 20 categories such as construction, manufacturing technology, electronics, pulp and paper, and industrial software.

475. **ODIN Internet Oil and Gas Directory**

http://www.oil.net/onogmain.html

This is a compilation of 25 Oil and Gas Companies that are on the Net, plus companies in 17 other categories such as Seismic/Survey and Production Equipment. Caution: The rest of ODIN has declined.

476. **Pronet**

http://www.pronett.com/

June Gold Tiger winner. Formerly the Global Interactive Business Directory, it has a new look and a new name, Pronet. Previously, you had to click through pages and pages of menus before finding one of the 150,000 companies (claimed) from around the world that is in its database. Now you can search by country, category and/or keyword right from the main page, although its requirement that you enter either a company name or a keyword places a bit of a burden on the user.

477. **TradeBank Online**

http://www.exporthotline.com/tradebak.htm

Global business-to-business directory with "listings for 15,000 companies in over 70 countries". This is the online version of the popular Export Hotline faxback service, which has attracted large sponsors such as AT & T and *Business Week* .

478. **Women's Professional Directory**

http://www.womensdirectory.com/

A couple of hundred businesswomen are listed in this directory "designed to provide information that women can use to collaborate, mentor, and advance their careers".

479. **Buy-Afrika.com**

http://www.buy-africa.com/

This project is presented by the Liberty Life Foundation to "develop and promote the talent of Africa's designers, craftsmen and manufacturers". Before browsing for ostrich eggs, decorated glass and hand cast resin in the Marketplace (in which actual purchasing seems to not be an option unless you are a retailer or wholesaler), read about the site developer's own favorite people, products and events in African Hotcakes, such as Mike and Carol Sutton who run a warehouse that is a source of income for 3,000 Zulu craftspeople.

480. **Arab Business Network**

http://www.xroadsme.com/

Formerly called Xroads to the Middle East and formerly parked in the Market Guide group within the Reference section of the **Super site**, this site has changed its name and now has material on four countries - Jordan, Palestine, Syria and United Arab Emirates.

481. **Europages**

http://www.europages.com/

October Gold Tiger winner. One of the most improved sites on the Net, it is at its core a business directory, with tens of thousands of listings from 36 nations of the continent. But the multilingual English-French-German-Spanish-Italian site pushes past that, with daily business news from Europe and beyond, macroeconomic analysis of the Euro economy (Caution: viewable only after a free but time consuming download of Adobe Acrobat software) and practical help such as a list of 1996-97 international fairs and exhibitions. Its so-called product catalogue grouping is a bit overstated, as the ones we went to were limited to one page each.

482. **In Asia**

http://www.inasia.com/

This site launched with great fanfare in June 1996, calling itself the "region's most extensive business and trade database on the Internet". Maybe, but at the time of launch we thought the site was amazingly incomplete, considering all the ad dollars it was spending. It did launch in mid-November a virtual trade show of hundreds of Asian multimedia companies, its directory is supposed to have 700,000 listings (albeit barebones basic), the Countries guides are fine, and the News section has some breaking stories from Asia Business News.

483. **Orient Business Express**

http://www.accessasia.com

Billed as the Asian Electronic Yellow Pages, this service allows you to search 850,000 listings from 8 East Asian countries. You may search by product/service, company name and/or SIC code. For example, we marked Taiwan and entered 'food' as the keyword and received 250 listings in 12 subcategories.

484. IndiaMart
http://www.indiamart.com
Online guide to businesses in India.

485. India Yellow Pages Online
http://www.indiayellowpagesonline.com/
The Yellow Pages is categorized A-Z with a very user friendly interface.

486. Mumbai Yellow Pages
http://www.mumbaiyellowpages.com/
Listings for all types of businesses in India.

487. ItdirOnline
http://itdironline.com/
Directory of information technology businesses in India.

488. Japan Yellow Pages
http://www.yellowpage-jp.com/
English language telephone directory. Published biannually every June and December, it includes over 28,000 listings covering hundreds of industries and businesses.

489. Chinese Yellow Pages and Business Guide
http://www.ChinaBiG.com/
A comprehensive Yellow Page directory and business resource for the greater China region with the latest business and industry news, reference information, and economic data.

490. Chinese Yellow Pages
http://www.cypdirect.com
Multi-language directory of businesses worldwide.

491. Taiwan Online
http://www.tw-online.com.tw/

Business directory.

492. Externa, the Argentina Business Gateway

http://www.externa.com.ar/

This is a pretty narrow "gateway" as, except for a company directory, there is no information about the country - we had no luck in the business opportunities section. They supposedly have an information section under development, but instead of "keep checking" as they suggest you'd be better off going to the already completed Argentina Business site from Foundation Inverter for background information. Extern's directory is not bad, though, as you can search through thousands of products, services and company names. Unfortunately, the listings are very basic in telephone book-style and the page lengths are longish for quick searches.

493. **Australian Enterprise Review**

http://www.icic.com.au/aer/

April 1996 Gold Tiger winner. More of a catalog or magazine than a directory, this is a fantastic showcase of several dozen global-oriented Australian industries and companies. Aimed at the Asian marketplace, this site should be of interest to business people anywhere in the world. There are a number of promotional articles like How to Make Money with Australia.

494. **Australian Manufacturers' Guide**

http://www.ausmanufacturers.com.au/

Calling your site "definitive" and claiming to have a "huge" database, as this Aussie trade directory does, ensures that you will be put under closer scrutiny. Our verdict on them is mixed. Our search for "cereal" found no listings, "software" found four, "gold" found a half dozen and "shoe" produced about ten results. However, the listings were more complete than in many other directories, as here they usually include an e-mail address and name of a manager, a link to a homepage if available, and a description of products offered, ranging in length from a couple of lines to a full page.

495. **Belgian Yellow Pages-Business and Economy**

http://www.advalvas.be/yellow/scripts/yellow003.pl/business/

900+ Belgian company sites. Many are active internationally, but some are of domestic concern only. An interesting one was Euro China Link, an attempt by a Belgian team to reach the Chinese consumer market by flying a kite. It is hard to explain; you'll have to go to their site yourself to understand.

496. **Brazilian Business Directory**

http://www.brabiz.com/en/engmain.html

Contact info and introductory sentences for dozens of companies in 25 categories. The creators have introduced a new re-mailing service to help you save on long-distance charges to Brazil, not to mention gain time savings. You send them a mailing list or fax list, and they will distribute your catalogs or documents within the country.

497. **Canadian Exporters Catalogue Directory**

http://www.worldexport.com/

This is the online version of a well-established trade directory. Messages from the Canadian Prime Minister, trade minister, industry minister, provincial premiers, and export associations are up, as are attractive displays of products and services.

498. **Direct Canada Exports**

http://www.canadex.com/

This site may be leading a new wave of directories onto the Web, in that it is far more specialized than most in at least two important ways. It concentrates solely on one sector, building products, and even less common is its decision to focus on only two countries - Canada and Japan. The bilingual English-Japanese site not only highlights Canadian suppliers but also lists Japanese construction companies that could be interested in importing from firms in any country.

499. Ecuador Yellowpages
http://www.ecuador-yellowpages.com/
Business directory and shopping and sales center.

500. Brazilian Yellow Pages
http://www.brazilyellowpages.com/
Directory of companies and professionals organized by category. [English/Portuguese]

501. Mexico Telephone Directories
http://www.mexicophonebooks.com/
Offering Mexico yellow and white pages, commercial and residential listings.

502. WorldPages.com
http://us.worldpages.com/
Featuring 117 Million U.S. and Canadian white and yellow pages listings.

503. Yellow Page City
http://www.yellowpagecity.com
North American Yellow Pages in Yellow Page book format for each city and state.

504. YellowPages.ca
http://www.yellowpages.ca
Searchable database of Canadian businesses.

505. Reveal.ca
http://www.reveal.ca/
Searchable directory for Canada.

506. Calgary Business Finder
http://www.calgarybusinessfinder.com/
Browse by category or search by name to find businesses.

507. **Chile Product Catalogue**

http://www.prochile.cl/cgi-bin/nph-cgiwrap/prochile/product.en.1/

Produced by ProChile, the Export Promotion Bureau. it is easy to search. Typing in "wine" gives choice of bottled wine, wine in bulk, or wine making machinery. Then, "bottled wine" choice accesses profiles on 35 companies.

508. ChilNet

http://www.chilnet.cl/buscai.htm

Available in English and Spanish, the number of Chilean companies found here reaches into the thousands, with faxes, phones and often e-mail addresses. Categories are broken down into precise sub-sectors.

509. Western China Products on the Web

http://www.sichuan-china.com/sichuan china/scpages/F_Products_List.htm

Still better known for its hot cuisine than for a hot economy, Sichuan is a market of 100 million people. This site, though, is concerned with the province's role as a producer, not a consumer, of goods. The problem is that the offerings range from the bland (lists of raw pharmaceuticals and non-ferrous metals that are available) to the mildly interesting (400 different Chinese medicines) to the weird (22 types of dog bones and 50 types of wigs). Maybe the article Chengdu: China's Wild West will leave you with a more favorable impression of the region.

510. Czech Business Directory

http://www.muselik.com/czech/business/directory/

Mostly service firms. Several listings in each of 20 categories including market research, interpreters & translators, real estate, and ad firms. The downloads were lightning fast when we checked.

511. Export Directory of Denmark

http://www.krak.dk/export/uk_index.htm

Kraks' very extensive listings for hundreds of companies include company profile, financial highlights, board of directors, and decision

makers. It is probably easiest to search by Product Categories, making use of the list. There is also a concise overview of the Danish economy.

512. Europages
http://www.europages.com/
Directory of businesses throughout Europe. Search by company data, activity or sector, keywords, or country. Multiple languages.

513. Yellow Pages Switzerland
http://www.theyellowpages.ch/
Search by name, business category, canton or locality to find the addresses and telephone numbers of businesses. Provided by Swisscom Directories AG.

514. Bizwizz
http://www.bizwizz.com/
Jersey Telecoms' online business directory. Search United Kingdom listings by business type or name.

515. Business Linx
http://www.businesslinx.co.uk/
United Kingdom business directory provides search for local companies by region, county and town.

516. YellowpagesSpain.com
http://yellspain.com/
Directory in English for people wishing to work or holiday in Spain.

517. Gula Sidorna
http://www.gulasidorna.se/main/frameset.asp
Yellow pages for Sweden

518. Turkey Yellow Pages
http://www.searchturkiye.com/
Directory of Turkish importers, exporters, manufacturers, dealers, joint venture companies with searching capabilities. Also includes a Guide to Doing Business in Turkey. [Turkish/English]

519. Finnish Top 100

http://www.nedecon.fi/top-100/default.htm

They never do tell us which company is ranked number one, but you can find turnover in local currency and number of employees for all, grouped by industry (including forestry) via an impressive image map.

520. France Companies

http://www.france-companies.com/ •

The safest spot on the site is its database of 450 small-medium French traders, neatly divided into 17 main categories. Elsewhere some of the content gets strange, as its inventors and innovators recommends partnerships with makers of disinfectants, Oriental hair removing paste, pool cleaners and other such essentials.

521. Frankfurt Digital Marketplace

http://www.frankfurt.de/data/dbexplore_0.html

The database hosted by the city's Economic Development Corporation has a new URL and has expanded to include 10,000 listings. Some of the listings we checked, however, even lacked phone numbers, making them virtually valueless. Other features of the EDC site includes a section on the best features of Frankfurt, which are said to include an international outlook, fast access to key European markets and an open-minded atmosphere.

522. Hong Kong Directory

http://www.hkdir.com.hk/

Hundreds of HK companies in several dozen categories. Easy search, as typing in "food" calls up listings in the categories of Food Exporters, Baby Foods, Dehydrated Foods, and Health Foods. Caution: Very little info on companies, usually just name and phone.

523. Indian Exporter's Yellow Pages

http://www.webpage.com/tradeindia/

The print version of this annual publication has been around since the early 90s and has a similar look, concept and name as the U.S. Export Yellow Pages, although the two have no connection as far as we know. The HTM version of the Indian EYP is a straightforward Name-Address-Tel-Fax list of 30,000 companies in about 300+ categories, but the Adobe Acrobat PDF version retains the appearance of the print edition. The site has an Under Construction icon on it, although it doesn't specify the developments it is working on. The Export Policies section has stories on trends, changes and highlights of Indian trade.

524. Irish Business on the Web

http://www.iol.ie/~aidanh/business/categor.htm

Updated weekly, this directory of 1000+ Irish business web sites points, for example, to a dozen business information organizations, 6 freight firms, 7 translation agencies, 11 brokerage houses, 15 food and drink companies and 8 engineers.

525. Irish Trade Board

http://www.irish-trade.ie/

With 30 offices, mostly in the EU, this trade promotion organization provides info on Irish companies and on the Irish marketplace. It publishes a newsletter on telecommunication and IT activity in Ireland as well as one on new product releases, but an even better place to be introduced to the offerings of Ireland is through its Annual Review, dated March 1997. The table of contents doesn't fully indicate the scope of that electronic publication, but if you have the publication to click one by one through 30 pages, you will be rewarded with profiles of sectors like consumer goods and electronics, most EU countries and selected companies that have penetrated foreign markets. The site also has a directory that is said to contain listings for 2,800 Irish exporters, but the drawback is that it is only searchable by company name. The export directory is now available in six European languages.

526. Italian Business Information System

http://www.ibis.it/index2.html

This bilingual English-Italian database with over 50,000 Italian companies can locate by region building & interior decorators, textiles & clothing, food & drinks and firms in several other sectors.

527. Italy's Industry Directory

http://www.tradenet.it/companies/index.html

In addition to its thousands of listings in 300 categories, its Product Finder service will forward your industrial quantity product requirements to an appropriate company at no charge to the user.

528. Business of Japan

http://www.iijnet.or.jp/press/boj/index.e.html

This directory profiles, through words and photos, 45 Japanese product and service firms wishing to do business with foreigners. The small font size makes parts of the home page hard to read, but the inside pages are fine. Food, lingerie, computers, and accounting services are just a few of the offerings.

529. Nairobi Business Directory

http://kenyaweb.com/cgi-bin/nbd.cgi

It has info on 10,000 of the city's businesses. We can't count that high, but we do know that "food" alone calls up 200 listings. Most were restaurants, supermarkets or spice shops, but a few chemical companies were mixed in! Typing in "banks" was good for another 150 or so.

530. Business Korea Plaza

http://www.bizkorea.com/

Korean products and exporters. Still quite small, but claims to be updated weekly.

531. Malaysia Electronic Publication

http://www.asiaep.com/my/malays.htm

MEP was a rather simple directory of 150 companies when last we checked. It has since expanded dramatically to 500 companies and a reported 5,000 pages in all. Downloads can be slow at time and they still use the obnoxious, keyword-spamming technique at the bottom of the first page, but otherwise they're on the right track.

532. The Dutch Yellow Pages

http://www.markt.nl/dyp/index-en.html

1100 companies from the Netherlands. E-mail, contact info, brief description. Consultancy, Government, and Industry are the most relevant sections.

533. Pakistan One7

http://204.250.12.11/one7/welcome2.html

In this national business directory, but there were basic yellow pages listings for numerous firms including financial consultants, textile manufacturers and chemical suppliers.

534. Portugal Offer

http://www.portugaloffer.com/

Anyone who has struggled to find good online information about this country will be pleasantly surprised to find this well-designed English-language site from investment services firm Finanstar. Not a mall but a suppliers' directory, by far the best sections are the attractive one-page company profiles of 100 businesses.

535. Saudi 100

http://www.saudi100.com/

The rank, turnover, number of employees, founding date, chief executive, and contact info are presented by *Arab News* for the Kingdom's largest companies, topped by Saudi Basic Industries Corp (SABIC). The site also offers insightful articles on the Saudi business and investment scene.

536. Asia Compass' Singapore Business Directory

http://www.asia-compass.com.sg/dir/dir.htm

A few hundred companies are listed, but overall the effort is quite weak. Phone-book style, the listings don't include e-mail addresses, fax numbers or even an identification of the type of business in which the listed companies are active. Bandwidth that could have been used for product descriptions is instead hogged by the needless inclusion of corporate logos beside many of the names, adding minutes to the download time.

537. South Africa Trade, Commerce and Industry

http://www.aztec.co.za/exinet/trade/trade.html

ExiNet's profiles of several South African manufacturers, exporters, importers and cargo firms. The vast majority of profiles are in the Exporters section.

538. Spaindustry

http://www.spaindustry.com/

This site fills a niche by opening the door to 20,000 traders in Spain. It allows specialized searches (e.g. by sales volume, by number of employees). Apparently it is possible to search for a company by industry and by sub-sector -- just make sure you press the upper search button, not the one beside the Company bar. But the good point was made that you can choose to have listed only those companies with Web sites.

539. Swedish Export Trade Directory

http://wwis.upnet.com/SED/

Published by the Swedish Trade Council, this directory has information on 10,000 companies. Some of them, like Saab, ABB and Ericsson, are already well-known to foreigners. Some of its features we liked, such as the ability to search by any of six factors and the listings themselves, which include a company's size, managers, products, etc.

540. Taiwan Products Online

http://manufacture.com.tw/

Companies from Taiwan continue to try to outdo each other in putting out online business directories. It is pretty much a toss-up, but we prefer this one to other well-known ones such as Taiwan Business Directory Online and Taiwan's Leading Exporters and Manufacturers. There is a plentiful supply of company profiles in the Homepages section, each with photos, text description and fact sheets, plus often a jump to the company's online "catalog". Its Directory of Taiwan Manufacturers has even more companies, although with much more limited information.

541. **Thailand Industrial Directory**

http://www.sino.net/thai/commerce/thaiprod.html

Hundreds of listings from 30 sectors.

542. Turkex

http://www.turkex.com/

The Turkish Foreign Trade and Tourism Center by Balli Communications still needs work, especially its Marketplace forum that only has a couple of postings. The Importers section usually has only one company per category, and unless they have taken out a "catalog" listing you'll only find basic address and phone info for them. The Exporters section seems to be the largest and shows the most promise, directing us to textiles, marble, food and other companies.

543. Turweb

http://turweb.com/

The massive fonts of this Turkish business directory can't hide the fact that there isn't that much here. The size is decent, with 1100 companies from many sectors and 100 business organizations such as foreign chambers of commerce and trade promotion bodies. But non value-added listings are almost always limited to phone and fax numbers, leaving you little more ahead than if you used an old-fashioned print directory. But

we suppose if for some reason you really need to contact an international lawyer in Istanbul .

544. UK Business Directory

http://www.milfac.co.uk/

54,000 UK companies registered. Caution: Searching capabilities could have been made easier.

545. Dun & Bradstreet Information Services

http://www.dnb.com/

Users can search its database for free to locate any of 10 million U.S. companies. Then, background reports on some of them can be ordered on the spot. The site also has a business how-to section with articles such as "How to Plan for Global Growth" and " Tips to Help You Export Successfully ".

546. Fortune 500

http://pathfinder.com/fortune/fortune500/

The annual ranking of America's largest companies is now updated for 1997. At $168 billion in sales, General Motors again tops the list by revenue. Disney made a big move from 102 to 55, as did Chase to 71 from 25. Cereal price cuts caused General Mills to suffer the biggest plunge, from 156 to 264.

547. GTE Superpages

http://yp.gte.net/

Its Interactive Yellow Pages contain listings (and maps) for 11 million U.S. businesses, searchable by company name, location, industry or 10-digit telephone number. It facilitates searches of Canadian businesses by linking to a similar site, Canada Yellow Pages.

548. Industry.Net Linker

http://www.industry.net/c/linker/list

Well-organized links to 6,000 online U.S. sites from 40 industrial sectors and 25 engineering disciplines.

549. Silicon Valley 150

http://www.sjmercury.com/business/sv150

The San Jose Mercury News' spreadsheet of financial data on the Valley's 150 largest public companies, with links to the web sites of many of them.

550. Thomas Register of American Manufacturers

http://www.thomasregister.com/

Free registration required. Database of product and service suppliers in 52,000 categories. Those of you who subscribe to the hard copy of this directory will know that not only does it consist of about 20 large volumes of company listings, but it also devotes a few volumes to in-depth company catalogs. You will be glad to know that these catalogs are now being added to the web site; 1700 are said to be available as of early December 1996 with another 600 to be added by January. The site is still free as long as you are willing to register.

551. Nevada Export Directory

http://www.tpusa.com/states/nevada/expdir.html

Sketches of dozens of companies classified by product category from this southwestern U.S. state. Mining and industrial machinery are its leading export products with Switzerland, Canada, the UK, and Japan its biggest markets.

552. Showcase Ohio

http://www.tpusa.com/ooed/showcase/welcome.html

This online catalog features trade-ready products from the Buckeye state in the U.S. Midwest. Dozens of companies are profiled through photo and text presentations.

553. Venezuelan Export Directory

http://www.ddex.com.ve/

Lists of products, companies, and services from this South American country are searchable in English, Spanish and Japanese.

554. Destination Vietnam Directory

http://www.well.com/user/gdisf/dirs.html

Sections of most interest to those in Vietnam on business would be Government Offices, Embassies, International Organizations, Consulting Firms, and Services.
